

# Desk management for hybrid offices

Manage ever changing space demands with an intelligent booking solution

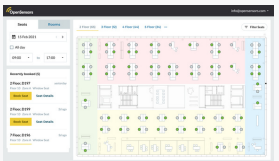

## Manage occupancy and space allocation

## Our technology adapts as your business evolves

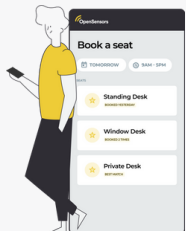

### Making the workplace easily accessible

Moving away from traditional 1:1 desk allocation requires new and modern tools to manage the increased complexity for space.

### Streamline desk allocation with a modern booking tool

An intelligent booking tool is the most effective way to guarantee maximum occupancy levels are not exceeded and spaces utilised to their full potential.

### Optimise employee office experience

Book from anywhere, anytime with the OpenSensors booking app, that provides recommended workspaces based on user needs for a seamless experience.

## Take the guesswork out of asset provision with accurate and reliable analytics

- 1 Understand how employees are using spaces provided 
- 2 Identify which areas are in high demand 
- 3 Make evidence based decisions when planning changes 
- 4 Ensure your workplace is optimised 
- 5 Measure the success of your strategy quickly and easily
