

# Supporting talent recruitment and retention

How OpenSensors booking tool makes accessing the workplace quick and easy

1

## Manage your schedule on the go

With the OSIO Booking app you can find, reserve and manage the spaces you require throughout the week anytime, anywhere.

2

## No need to check in on or out

Integrated occupancy sensors detect your presence upon arrival to your booking and check you in automatically, and check you out when you leave, for a seamless experience.

3

## Booking tailored to your needs

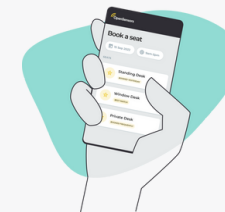

Set up your booking preferences to narrow down your field of search and find only the spaces that are right for you.

4

## Running late? Save your space

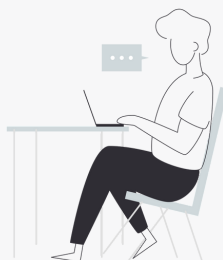

If you hit a delay you can hold your space through a link in our automated reminder emails, so you never need to lose your space again.

5

## Save time with suggested spaces

Our booking system learns from your previous bookings and recommends similar locations so you don't have to search.

6

## Book a space in under 30 seconds

Accessing the workplace should be easy, which is why our booking system is designed with minimal clicks to get you the spaces you want.
